- Your lists, your filters, and your views

**Hi-Lites** - Key points marked on graphs

**Alerts** - Never miss an opportunity again!

**Plus!** - One-click exchange with **Optionetics<sup>®</sup> Platinum<sup>™</sup>**

# Your Trades, Your Way

**ProfitSource** is an advanced technical analysis software package designed to help you identify and profit from winning trades. With sophisticated scanning algorithms and fully customizable search capabilities, **ProfitSource** allows you to quickly and easily find trades that meet your predefined criteria. You trade what you want, the way you want. Your Start screen displays *your* data, and modifiable and color-coded elements provide a comprehensive view of global markets – as well as your holdings.

Elliott Wave counters and indicators are preset, so you have more time to select your best trading strategies.

Time and price projections are prepackaged with wave counts, making your analysis faster and easier.

Elliott Wave targets are automatically drawn onscreen, providing you a visual representation.

All scan results are presented in summary, so you can pick prime prospects to scrutinize in depth.

Wave counts are clearly labeled, saving you valuable time.

Your Favorites toolbar is easily customizable, providing quick access to commonly-used icons.

## Stay Alert with ProfitSource

Built-in filters within **ProfitSource** enable you to set your own alerts for lists of targets you create or for markets you like to trade. With the software's intuitive interface, you can set up alerts in less than a minute and use them to monitor the market according to your pre-defined criteria. Since there is no limit to the number of alerts you can set up, you can activate many alerts and create a virtual team of financial opportunity advisors personally focused on *your* trading success.

**Add Alert**

# Identify Profitable Trading Opportunities

**ProfitSource** makes it easy for you to find trades with great profit potential. The **ProfitSource** Market Scanner is the key to isolating trading opportunities that match your preferred trading style (and strategies) and stock sectors. For example, you can set up a scanning routine that searches an updated world database of securities for stocks on the move screened by your chosen criteria.

- 1 Choose your criteria** Identify your search parameters from a range of indicators, HI-Lites and predefined trading signals.

**1** Choose your criteria

Choose from a comprehensive list of technical indicators.

Check the box for the signal you want.

**2** Press the Start button

Start

All positive scan results are displayed in one easy-to-read checklist.

Criteria Matched: 33Meets All 221Meets Some 69Meets None

Symbol	Data Date	Price	Price	Price
AACB	11/11/2004	25.26 < 25.42	24.92 < 24.99	25.07 > 25.26
AANB	11/11/2004	18.3 < 18.5	18.14 < 18.499	18.46 > 18.3
ABCO	11/11/2004	33.9		
ABER	11/11/2004	36.7		
ABRI	11/11/2004	3		
ADAT	11/11/2004	6.5		
ADPI	11/11/2004	18.2		
ADRA	11/11/2004	65.4		
ADRD	11/11/2004	63.6		
ADS	11/11/2004	42.0		

Identify the winners.

- 3 Check** Scroll through your market scan results to determine the best plays of the day.

# Systems Testing Made Simple

Backtesting is a popular and effective way to learn how to recognize patterns in the market that can help you reap future profits. ProfitSource incorporates extensive system testing capabilities that make it easy to backtest on five or more years of data. In just a few quick steps, you can create a simulation of a given trading strategy and gauge its effectiveness by using relevant past data.

## 1 Activate the System Builder

All it takes is one click.

## 2 Choose a market

Select a market, a sector, or create your own list of stocks to target.

## 3 Build your system

Plain language interface!

Use the simple interface to set up sophisticated and comprehensive systems. Select from 11 signals, 31 indicators and additional market criteria that you define.

## 4 View results and fine tune

Once you've built and tested your system for profitability, you can refine it by modifying your parameters and trying out new lists.

Statistic	All Trades
Total Profit	74736.74
Gross Profit	113808.14
Gross Loss	-39071.39
Total Trades	51
Avg Trade Profit	1465.43

See your most profitable strategies - at a glance.

# Your Profits are Waiting with Pre-computed Scans

Uncovering money-making opportunities through technical analysis hinges on the ability to perform powerful mathematical scans on price data.

**ProfitSource** takes the lead by providing you with pre-computed scans that identify hot opportunities in the markets you like to trade, and placing them on your Start screen every time you log in. You can choose among 16 scans, each updated with the day's best prospects.

List Name	Date	Count of Contents

Once you have isolated the stocks with high potential for gains, a quick-link interface between **ProfitSource** and award-winning Optionetics Platinum options analysis software makes it easy for you to select the best options trade positions.

With one click you can also move existing or newly created lists of high-profit, low-risk trades from Platinum to **ProfitSource** to perform technical analysis.

# Innovative Trading Tools to Help You Profit

**ProfitSource** includes a powerful suite of tools designed to help you focus your time and effort on what counts most – finding great trades.

## Range Projector

The Range Projector uses price swings to provide the price ranges in which subsequent swings are likely to occur. It offers a helpful guide for identifying the potential profitability of your trades.

## Risk Reward Tool

Compare the risk and possible reward of each trade at a glance. This innovative tool calculates and compares risk and reward variables and displays them in an easy-to-read color-coded format.

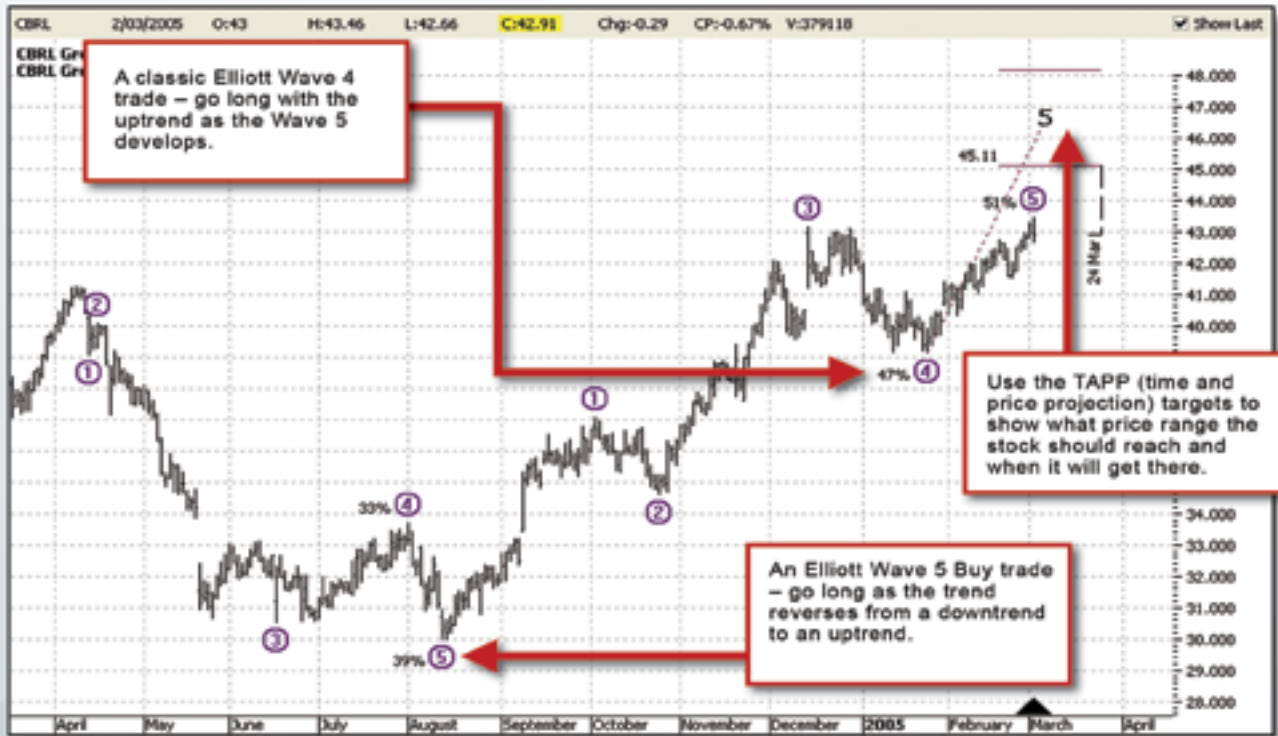

## Hi-Lites

See trading opportunities clearly with **ProfitSource** Hi-Lites. By illuminating key points on graphs, Hi-Lites quickly direct attention to trends, price gaps, tops and bottoms, and more. They are drawn automatically and can be turned on and off with ease.

# Elliott Wave Trading Signals

ProfitSource takes full advantage of Elliott Wave theory by offering clearly defined Elliott Wave Trading Signals.

## EBOTS!

EBOTS (Elliott Wave Breakout Triggers) provide entry/exit signals for Elliott Wave trades. They identify exactly when to execute an Elliott Wave trade by signifying when a trend is likely to change. For example, when the criteria for a Wave 5 Buy trade is in place and the stock closes above the EBOT, a buying opportunity is triggered. Likewise, when the stock closes below the EBOT in a Wave 5 downtrend, a selling opportunity is triggered.

A Wave 4 Buy setup – use the EBOT to time your entry to buy the stock.

A Wave 5 Sell setup – use the EBOT to time your entry for a short sell trade or to exit a long trade.
